[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

MESSAGE QUEUE DATA

US Pat. 3895357 - Filed Nov 15, 1973

When the end of the thread of the display data stored in the queue memory 202 corresponding to the Y index value, is read into the queue data register 226,

...

MESSAGE QUEUE DATA

US Pat. 3906480 - Filed Feb 23, 1973

When the end of the control word is read from the memory 306 and loaded thread of the display data stored in the queue memory into the Y register 310, ...

Apparatus for displaying the status of individual dictated messages in a ...

US Pat. 4319337 - Filed Oct 12, 1979 - Dictaphone Corporation

Whenever all of the job records in the sector of a particular queue have been read out therefrom, that is, such job records have been shifted to other ...

Flexible software-based decoding system with decoupled decoding timing and ...

US Pat. 6246720 - Filed Oct 21, 1999 - Sony Corporation of Japan, Sony Electronics, Inc.

Upon each interrupt, ISR module 199 sends a message on message queue VI 133.

Demultiplexing module 140 receives messages from ISR module 199 via message ...

Electronic mail management system for operation on a host computer system

US Pat. 5632011 - Filed May 22, 1995 - Sterling Commerce, Inc.

In indicated generally at 66. that comprises a queue display addition me text ... of his message was not read prior addresses associated with the messages.

...

Facsimile telecommunications system and method

US Pat. 5459584 - Filed Jan 12, 1995 - Audiotax, Inc.

When the Mail Box Queue is actually read by the addressee the ... Thus, the user may select messages from the queue in the computer mode and then the Nail ...

Urgent call displaying method for a radio paging receiver

US Pat. 5430440 - Filed Aug 16, 1993 - SamSung Electronics Co., Ltd.

In some situations (eg, a read messages or the oldest message within the queue to physician currently engaged in operating room surgery) accommodate storage

...

Electronic mail management system for operation on a host computer system

US Pat. 5928333 - Filed May 19, 1997 - Sterling Commerce, Inc.

In addition, push buttons are provided to print selected information, to save messages to disk files or other facilities and to refresh the queue display ...

Console simulator, multi-console management system and console management ...

US Pat. 5689637 - Filed Jul 5, 1996

To implement this structure, a fixed length queue file is The second ... host or to the of queue information, that is, the display of messages to and ...

Facsimile telecommunications system and method

US Pat. 5291302 - Filed Oct 2, 1992 - Audiofax, Inc.

When the Mail Box ^ Queue is actually read by the addressee the ... Thus, the user may select messages from the queue in the computer mode and then the Mail

...

Data acquisition and retrieval system with wireless handheld user interface

US Pat. 5867688 - Filed Feb 14, 1994 - Reliable Transaction Processing, Inc.

23 24 10 15 25 collect messages — this routine will read through each ... to queue. dequeue — this routine will take messages off the queue and place in a

...

Method for providing incentive to play gaming devices connected by a network ...

US Pat. 6244958 - Filed Jun 25, 1996 - Acres Gaming Incorporated

If so, the player tracking controller sets up the 10 display driver to incorporate ... queue for messages coming from the machines to the floor controller. ...

Method for asynchronous application communication

US Pat. 5327558 - Filed Apr 30, 1992 - Motorola, Inc.

11) retrieves the current display adapter type. serial port .configuration is ... Once the queue is full no more messages are read from the serial port, ...

Simultaneous control of radio frequency modem in a multi-tasking system ...

US Pat. 5715474 - Filed Apr 30, 1992 - Motorola, Inc.

IF no serial port is available THEN Display an error message exit ENDIF Save ... Once the queue is full no more messages are read from the serial port, ...

Group-oriented communications user interface

US Pat. 5579472 - Filed Nov 9, 1994 - Novalink Technologies, Inc.

Of most utility to the subscriber, display 90 presents queue 94 comprising messages received solely from the VIP member whose image 91 is displayed. ...

Adaptable multiple port data buffer

US Pat. 5214760 - Filed Aug 26, 1988 - Tektronix, Inc.

The < buffer > field indicates the particular buffer or queue (LB for line ...

DISPLAY DATE This command tells the EXECUTE COMMAND routine to read the ...

Satellite based collision avoidance system

US Pat. 6314366 - Filed Aug 16, 1994

The STARS control process at the read receiver queue step 112 moves the data ... necessary to receive and transmit messages with other STARS separate and ...

Method for providing incentive to play gaming devices connected by a network ...

US Pat. 6431983 - Filed Apr 10, 2001 - Acres Gaming, Inc.

If so, the player tracking controller sets up the 10 display driver to incorporate ... queue for messages coming from the machines to the floor controller. ...

Display of messages from a plurality of processes running in parallel
US Pat. 6518983 - Filed Mar 20, 2000 - International Business Machines Corporation
This causes the interfacing process to read the appropriate message from the appropriate message queue and display it (11, 12). Work-handling process 2 is

...

Console simulator, multi-console management system, and console management ...
US Pat. 5592657 - Filed Jan 3, 1995
Other items attended to by the host control task is display of queue information, that is, the display of messages to and from the ...

Facsimile telecommunications system and method

US Pat. 6643034 - Filed Oct 11, 2000 - Audiofax IP, LLC

When the Mail Box Queue is actually read by the addressee the ... Thus, the user may select messages from the queue in the computer mode and then the Mail ...

Speech recognition system which turns its voice response on for confirmation ...

US Pat. 5983179 - Filed Jun 26, 1997 - Dragon Systems, Inc.

40 simulated keystroke or mouse messages associated with a In a similar manner, ... The message group header is used to indicate of the queue. the start of ...

System for displaying two independent images received from network

US Pat. 6639608 - Filed Nov 6, 1998

5^ The message at the top of the queue is the total display limit is designated. ... The display suspender images and the messages are displayed in separate ...

CALL WUST

US Pat. 3887903 - Filed Aug 29, 1973

If so, the queue entry is purged at 534 and a decision is made at 536 as whether or not a message end print queue is being provided. If so, the messages are ...

Computing apparatus and operating method using software queues to improve ...

US Pat. 5949439 - Filed Aug 15, 1996 - Chromatic Research, Inc.

The determine queue position operation 506 compares the ... 102 and many of the application programs may transmit messages over the software queue 144. ...

Method of speech command recognition with dynamic assignment of ...

US Pat. 5960394 - Filed Oct 22, 1997 - Dragon Systems, Inc.

If the causes step 1488 to copy the message queue's message Word's ... more messages to be sent to MS Windows, standard cyclical queue with read and write

...

Method and apparatus for providing electronic mail services during network ...

US Pat. 6289212 - Filed Oct 13, 1998 - Openwave Systems Inc.

The retrieved message body is then displayed 714 on the display device of the ... a message read request is placed 756 in the asynchronous message queue. ...

Multiple database display controller for displaying messages having ...

US Pat. 6189028 - Filed Jan 20, 1998 - R.R. Donnelley & Sons Company

Similarly, some auxiliary controller display messages may have priorities ...

The display controller system of claim 20 wherein the message queue stores the

...

Bar code driven data communication network

US Pat. 6507868 - Filed Mar 30, 2001 - Metrologic Instruments, Inc.

After a message has been received and put on the process queue, ... to clear the old data and read the input buffer for the next command. collect messages ...

Computer testing arrangement

US Pat. 4713758 - Filed Apr 29, 1985 - American Telephone and Telegraph Company, AT&T Bell Laboratories

Only messages in the spool queue accompanied by an indicator as defined in local memory will be read. The local memory indicator was set to "x" in block 618 ...

Patents 1 - 30 on monitor manage and accessed messages in the queue by administrator

[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

Video gaming system with fixed pool of winning plays and global pool access

US Pat. 5324035 - Filed Dec 1, 1992 - Infinitational Technologies, Inc.

Options accessible to the administrator Data structures are also provided ... (5) edit system messages; and (6) queue like allow up to six messages to be ...

Apparatus and method for managing communication between a failed application ...

US Pat. 6757289 - Filed Jun 4, 1999 - Nortel Networks Limited

In preferred 2s embodiments, the message queue 50 receives messages having ... items on the platform and typically is utilized by a system administrator. ...

Method and apparatus for message flow and transaction queue management

US Pat. 7124110 - Filed Jul 15, 2002 - Trading Technologies International Inc.

The system preferably notifies an administrator (by email or other suitable ...

Rather, the stored messages in the queue are managed using the techniques ...

System and method for selectively and contemporaneously monitoring processes ...

US Pat. 5675798 - Filed May 16, 1996 - International Business Machines Corporation

The purpose of the server monitor is to determine and display, such as by way of ... Those differences become crucial when a client, network administrator, ...

Architectures for netcentric computing systems

US Pat. 7020697 - Filed Nov 3, 2000 - Accenture LLP, Accenture ANS

Both the application and the administrator can control the order of the messages (service requests) in the queue. Messages can be ordered LIFO, FIFO, ...

Performance and status monitoring in a computer network

US Pat. 5627766 - Filed Jan 3, 1995 - International Business Machines Corporation

7 the nature and number of application instances servicing Each node of the network has means for maintaining a list (receiving messages from) the queue and ...

Apparatus and method for monitoring messages forwarded between applications

US Pat. 6915457 - Filed Jun 4, 1999 - Nortel Networks Limited

In preferred embodiments, the message queue 50 receives messages having ... items on the platform and typically is utilized by a system administrator. ...

Detecting possible fraudulent communication usage

US Pat. 5907602 - Filed Feb 9, 1998 - British Telecommunications public limited company

This process allows a System Administrator 64 to lion's release management ... subjected to change manage- toring functions and forwards new messages to the ...

Electronic mail filtering system and methods

US Pat. 6772196 - Filed Jul 27, 2000 - Propel Software Corp.

This record set messages as entered into the hold queue 72 to determine as ...
as an email routing relay for a client site administrator to set and manage ...

Apparatus and method for establishing communication between applications

US Pat. 6901594 - Filed Jun 4, 1999 - Nortel Networks Ltd.

In preferred embodiments, the message queue 50 receives messages having ...
items on the platform and typically is utilized by a system administrator. ...

Context management with audit capability

US Pat. 6941313 - Filed Dec 11, 2001 - Sentillion, Inc.

The monitor 180 may similarly be a telephony or paging server, adapted for
delivering a telephone or pager message to an administrator or other security

...

System for localizing and sensing objects and providing alerts

US Pat. 6847892 - Filed Oct 29, 2001 - Digital Angel Corporation

As discussed below, the Data Processor Service 455 monitors the Alert Queue and
Non-Alert Queue (in which device data is posted by the Data Monitor Service ...

Software, systems and methods for managing a distributed network

US Pat. 6671724 - Filed Mar 21, 2000 - Centrisoft Corporation

Administrator module 134 interacts with various other agent modules, ...

Messages extracted from the queue are sent to the agent's active control point.

...

Dynamically adaptive network element in a feedback-based data network

US Pat. 6769024 - Filed Feb 5, 2003 - Cisco Technology, Inc.

2, each network element which is configured to receive event notification
messages includes an event notification queue or other data structure for ...

Discovery and management of network printers

US Pat. 6920506 - Filed Jun 28, 2001 - Canon Information Systems, Inc.

A print queue is setup by the network administrator by entering information ...
not have a single focal point from which to efficiently manage all printers. ...

Method and system for processing data records from a telephone data ...

US Pat. 6067354 - Filed Oct 9, 1998 - MCI Communications Corporation

A system administrator can schedule these requests and will manually clean ...

The Process Monitor Subsystem 240 provides the means to start and stop the ...

Thread memory reclamation

US Pat. 6842901 - Filed Jun 4, 1999 - Nortel Networks Limited

In preferred 30 embodiments, the message queue 50 receives messages having ...
items on the platform and typically is utilized by a system administrator. ...

Dynamically adaptive network element in a feedback-based data network

US Pat. 6539427 - Filed Jun 29, 1999 - Cisco Technology, Inc.

2, each network element which is configured to receive event notification
messages includes an event notification queue or other data structure for ...

Method and apparatus for providing a printer having internal queue job ...

US Pat. 5873659 - Filed Apr 24, 1996

Assuming this query is control panel which can be either manually-accessed by a for full information, the user/Network Administrator may, as local user, ...

System and method for testing a telephone data interface system

US Pat. 6047045 - Filed Oct 9, 1998 - MCI Communications Corporation

A system administrator can schedule these requests and will manually clean out any ... Accordingly, the Process Monitor Subsystem 244 is started at system ...

Router table manager

US Pat. 6810427 - Filed Jun 4, 1999 - Nortel Networks Limited

Management data, however, is used to monitor and/or control items on the platform and typically is utilized by a system administrator. ...

Dynamic adjustment of network elements using a feedback-based adaptive technique

US Pat. 6577597 - Filed Jun 29, 1999 - Cisco Technology, Inc.

2, each network element which is configured to receive event notification messages includes an event notification queue or other data structure for ...

Method and system for collecting reports for call center monitoring by ...

US Pat. 6707904 - Filed Feb 25, 2000 - Teltronics, Inc.

From this application, the user can configure the system setup and parameters and monitor system performance. The ACD server administrator 126 is the only ...

System and method for communication between a telephone data repository and ...

US Pat. 6411698 - Filed Oct 13, 1998 - MCI Communication Corporation

A system administrator can schedule these requests and will manually clean ...

The Process Monitor Subsystem 240 provides the means to start and stop the ...

Method and system to print via email

US Pat. 6993562 - Filed Mar 21, 2002 - Peerless Systems Corporation

System Monitor 114 periodically sends messages to the Driverless Print Server to get the status of the program and any print jobs in its queue. ...

Method of administering software components using asynchronous messaging in ...

US Pat. 6904593 - Filed Mar 24, 2000 - Hewlett-Packard Development Company, L.P.

An agent main- referred to as the Administrator) comes up, it begins to tains its own queue for receiving messages for startup, 5 monitor the status of each

...

[APPLICATION] Managing connections, messages, and directory harvest attacks at a server

US Pat. 11139114 - Filed May 27, 2005

[0066] By having monitor 110 store the message information in queue 112 for

[0074] Email injector limiter 134 is used to manage the email messages from ...

Method and apparatus for operating a communication network monitor arrangement

US Pat. 5333308 - Filed Aug 20, 1993 - AT&T Bell Laboratories

Thus, the network monitor administrator, illustratively at console 130, can add or change status or repair programs and change time intervals or other ...

System and method for achieving local number portability

US Pat. 6370548 - Filed Oct 9, 1998 - MCI WorldCom, Inc.

A system administrator can schedule these requests and will manually clean out

any ... Accordingly, the Process Monitor Subsystem 244 is started at system ...

Visual data integration system and method

US Pat. 6208345 - Filed Jun 8, 1998 - ADC Telecommunications, Inc.

21. monitor log files and generates basic system management when the visual interface 501 is in the Business Man- queue charts. The charting module also ...

Stay up to date on these results using the [patents RSS feed](#) on monitor manage and accessed messages in the queue by administrator.

[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

Centralized system and method for administering computer based tests

US Pat. 5513994 - Filed Apr 3, 1995 - Educational Testing Service

6 would be selected by the administrator to review a queue of waiting messages.

... The administrator can then print or delete the message. ...

Digital data processor with maintenance and diagnostic system

US Pat. 5220668 - Filed Jun 28, 1991 - Stratus Computer, Inc.

Events are manifested as messages placed on the message queue ... With these utilities the administrator can do such operations as: 65 display the Module ...

System and method therefor of viewing in real time call traffic of a ...

US Pat. 5825769 - Filed Jan 17, 1996 - MCI Corporation

11 12 Statistics Message". This message is not sent to TVS system or no data in the MTS/TVS server queue for MTS server interface process 70 to read.

...

Call center queue administration

US Pat. 6882641 - Filed Feb 23, 2000 - Lucent Technologies Inc.

In this message, the field my feature server indicates the 50 symbolic IP ... this period so that only one operator at a time can be acting on the queue. ...

Router table manager

US Pat. 6810427 - Filed Jun 4, 1999 - Nortel Networks Limited

In preferred embodiments, such function utilizes the queue message handle, ... items on the platform and typically is utilized by a system administrator. ...

Method and system for providing emergency call service

US Pat. 5379337 - Filed Aug 16, 1991 - U S WEST Advanced Technologies, Inc.

Data/Data Tables: Data and data tables that support System Message Log: The ... 215 that can receive an 45 CERS system 200 (eg the administrator 239) can ...

[APPLICATION] Message broadcasting billing system and method

US Pat. 11602462 - Filed Nov 20, 2006 -

All Broadcast Agents belong to a Broadcast Agent Administrator, ... BR messages are held in a message queue 346 and may be received from broadcast agents on ...

[APPLICATION] User connectivity process management system

US Pat. 10888923 - Filed Jul 9, 2004

The "Vendor" link 1108 displays a "Vendor" page where the user can add, remove, or modify vendor information. The "Work queue" link 1109 brings the user to ...

[APPLICATION] Computer network system for building, synchronising and/or operating a ...

US Pat. 11390099 - Filed Mar 28, 2006

[0372] The error messages and the errored data can be displayed (sorted if ... Mn) which are sent to it from an input wait queue (Qin), to test whether all ...

Distributed user management information in telecommunications networks

US Pat. 7020696 - Filed Nov 1, 2000 - Ciena Corp.

The administrator need not send out a notice or take other steps to update each user. 15 Group names in a user profile define what the user can view. ...

[APPLICATION] Isolated control plane addressing

US Pat. 9838310 - Filed Apr 19, 2001

The administrator need not send out a notice or take other steps to update each user. [0346] Group names in a user profile define what the user can view. ...

[APPLICATION] Granular management of network resources

US Pat. 10938160 - Filed Sep 10, 2004 - CIENA CORPORATION

The administrator need not send out a notice or take other steps to update each user. [0403] Group names in a user profile define what the user can view. ...

[APPLICATION] Network device power distribution scheme

US Pat. 9756936 - Filed Jan 9, 2001 - Equipe Communications Corporation

The administrator need not send out a notice or take other steps to update each user. [0317] Group names in a user profile define what the user can view. ...

[APPLICATION] Common command interface

US Pat. 9832436 - Filed Apr 10, 2001

The administrator need not send out a notice or take other steps to update each user. [0351] Group names in a user profile define what the user can view. ...

Network device including dedicated resources control plane

US Pat. 7263597 - Filed Apr 19, 2001 - CIENA Corporation

The administrator need not send out a notice or take other steps to update each user. Group names in a user profile define what the user can view. ...

[APPLICATION] Out-of-band network management channels

US Pat. 9789665 - Filed Feb 21, 2001 - Equipe Communications Corporation

The administrator need not send out a notice or take other steps to update each user. [0335] Group names in a user profile define what the user can view. ...

[APPLICATION] Autonomic hardware-level storage device data integrity checking

US Pat. 10865286 - Filed Jun 10, 2004 - International Business Machines Corp.

... If the I/O queue is greater than 3 don't run any checks. ... can be made by a system administrator dynamically if, and when, the nature of the data or ...

Stay up to date on these results using the [patents RSS feed](#) on administrator or tester can read and remove message from a queue.
